

YouthBuild Construction Trainer

Purpose

To provide construction instruction and worksite supervision and to YouthBuild Members. The Construction Trainer must also be able to build strong relationships and support a transformative culture for the YouthBuild Members.

Qualifications

Qualified candidates will have a minimum of a journey- or technician-level experience in the craft *or* a minimum of three years of experience as a certified teacher in a vocational/technical construction or maintenance-related training program. This experience must be reflected on your resume.

The Construction Trainer will attend and complete the ICTP (Instructor Certification Training Program) under YouthBuild USA and will be certified as Craft Instructor, giving them the ability to certify their YouthBuild Members in NCCER Construction Curricula.

Primary Responsibilities

- Assist in the teaching of construction skills including demolition, rough framing, roofing, drywall, finish carpentry, sheet metal, electrical, plumbing, painting, and masonry.
- Assist in personal and vocational counseling and development of trainee's leadership skills in conjunction with other YouthBuild staff.
- Assist in the evaluation of student knowledge and skills in construction.
- Participate in the development of project –based curriculum that includes construction.
- In the absence of the Construction Manager, the Construction Trainer will be responsible for the construction site, maintain production safety, and interface with subcontractors and inspectors.
- Teach the proper use and handling of all hand tools, power tools, and equipment.
- Assist Construction Manager with overall safety enforcement.
- Inform supervisor about material needs for job site.
- Keep track of all tools and equipment used on the job on a daily basis.
- Attend all staff meetings and coordinate individual plans with other YouthBuild staff.
- Serve as a mentor to YouthBuild trainees each program cycle.
